

Safe Return to In-Person Instruction and Continuity of Services Plan (ARP Act)

Entity ID	CTDS	LEA NAME
4374	080209-000	Littlefield Unified School District No. 9

How the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policies, on each of the following safety recommendations established by the Centers for Disease Control and Prevention (CDC)

CDC Safety Recommendations	Has the LEA Adopted a Policy? (Y/N)	Describe LEA Policy:
Universal and correct wearing of masks	Y	In the Spring of last school year the LUSD9 board approved an optional mask policy. The board reaffirmed the option in its August 2021 meeting. Masks if worn are to be worn properly as recommended by the CDC.
Modifying facilities to allow for physical distancing (e.g., use of cohorts/podding)	Y	Our mitigation plan calls for 3 feet of distancing in the classroom and 6 feet in common areas when possible, as recommended by the CDC. Seating in classrooms and lunchrooms to allow for maximum spacing and safety.
Handwashing and respiratory etiquette	Y	Frequent hand washing and use of at least 60% alcohol-based hand sanitizer as recommended. Cough or sneeze into a tissue, then throw the tissue in the trash. Avoid touching your eyes, nose, or mouth.
Cleaning and maintaining healthy facilities, including improving ventilation	Y	Ventilation protocol includes fresh air breaks throughout the day and daily rotation of air sanitizing machinery. Frequent disinfecting and wiping down of high point of contact surfaces in classrooms, common areas, and door handles with a CDC compliant sanitizing solution. Deep cleaning of buildings, playgrounds and buses each evening, including sanitization and the use of electromagnetic sprayers. Air purifiers have been added to all classrooms, office and common areas.
Contact tracing in combination with isolation and quarantine, in collaboration with the State, local, territorial, or Tribal health departments	Y	A point of contact person within the district to work with our local and county health agencies in collaboration and contact tracing.
Diagnostic and screening testing	Y	A person within the district to complete testing of athletes as well as employees or students experiencing symptoms or whom have come into contact with a person positive for COVID.
Efforts to provide vaccinations to school communities	Y	Coordination with our local and county health department to make vaccinations available to all staff members who wanted them.
Appropriate accommodations for children with disabilities with respect to health and safety policies	Y	Working with families regarding individualized plans for children with disabilities in accordance with our existing protocols for health and safety.
Coordination with State and local health officials	Y	Mitigation plans include keeping up to date with state, county and local health officials regarding

Safe Return to In-Person Instruction and Continuity of Services Plan (ARP Act)

recommendations and risk level.

How the LEA will ensure **continuity of services**, including but not limited to services to address **students' academic needs and students' and staff social, emotional, mental health, and other needs**, which may include **student health and food services**

How the LEA will Ensure Continuity of Services?

LUSD 9 returned to in-person instruction during the 2020-2021 school year and will maintain that model throughout the school year. LUSD9 will emphasize the use of adopted and recommended sanitizing procedures and social distancing guidelines in accordance with CDC recommended health and safety guidelines. The governing board of LUSD9 adopted an optional mask policy and those who choose to wear masks will wear properly, as recommended by the CDC. PPE may be used, but according to Arizona State Legislative mandates, they may not be required.

In person instruction will be available for the same number of days per week and open the same hours offered during the prior school year before the COVID-19 closures or mitigation strategies took effect. ESSER funds are being used to maintain the same number of teachers and staff or increase the number to help ensure the return of school employees to assist in the continuity of services for returning to in-person instruction. Two new positions have been added to ensure the safety of students and to assist in the academic support of our subgroups. In the event of a school closure due to COVID 19 cases or exposure, regular classroom teachers will convert their instruction to remote learning and provide recorded instruction, materials, resources, and assignments via Google Classroom until face to face instruction can resume, maintaining continuity of classroom instruction. Junior High and High School teachers would use the online features of their curricula and could have access to Imagine Learning to help facilitate remote learning and maintain continuity of services. Additionally, time would be designated each week for live lessons for instruction via remote distance learning options until in-person learning can resume. The district will each provide free on-site support options and make them available for the same number of days per week and open the same hours offered during the prior school year before the COVID-19 closure took effect. The district increased the amount of devices and students are issued a Chrome Book for the year so they have technology available to them whether on school campuses or at home. All teachers were issued a laptop with working microphones and cameras in the event of shifting to distance learning.

LUSD9 has a full time Social Worker who is also available to help support students with SEL needs. Teachers have received professional development and classroom support materials to help provide awareness and support for Social Emotional Learning. LUSD9 partnered with a local community resource to provide Project Diamondback, a personal items and food pantry available to students to help support at risk students and families. Additionally, LUSD9 has participated in the extension of the Summer Feed Nutrition Program from the Federal Government, designed to keep our students fed at no cost to them. In the event of a school shut down meals would continue to be delivered to our designated bus stops in the community. LUSD9 will follow all requirements of the USDA Summer Feed Nutrition Program, including any changes or modifications.

Students' Needs:

Academic Needs	The plan includes a model for in-person instruction, tiered academic interventions and support for students in their learning gaps as well as ensuring our curriculum addresses all students in their various learning targets.
Social, Emotional and Mental Health Needs	The district has provided training and support to all staff in the area of social and emotional learning and trauma informed practices. Our district social worker provides direct services to the students and collaborates with local providers in meeting the overall wellbeing of our students. Schools have formed Professional Learning Communities to specifically address students' behavioral needs.
Other Needs (which may include student health and food services)	Through participation in the summer food program, our district has been providing meals to students throughout the summer and many of the non-school days we have had. We provided delivery of meals to our bus stop locations to make it easier for students to access

Safe Return to In-Person Instruction and Continuity of Services Plan (ARP Act)

	meals.
Staff Needs:	
Social, Emotional and Mental Health Needs	The district has provided training and support to all staff in their own needs. Support has been provided through a social worker and through information about services available through our health insurance.
Other Needs	Instructional support has been provided through the district's contracting with a consultant who is in the schools twice a month.

The LEA must **regularly, but no less frequently than every six months** (taking into consideration the timing of significant changes to CDC guidance on reopening schools), **review and, as appropriate, revise its plan** for the safe return to in-person instruction and continuity of services **through September 30, 2023**

Date of Revision	<p>Our return safety to in person instructional plan was adopted by the board on August 12, 2021</p> <p>Revision, February 10, 2022</p> <p>Revision, August 11, 2022</p> <p>Revision, February 9, 2023</p> <p>Revision, August 10, 2023</p>
Public Input	
Describe the process used to seek public input, and how that input was taken into account in the revision of the plan:	Public input was sought through survey, discussion at parent meetings, staff meetings and communication with public health agencies, ADE guidance and by placing the plan on an agenda at a public meeting of the school district's governing board. Public comments were considered in the making of the plan then and in the future.

U.S. Department of Education Interim Final Rule (IFR)

(1) LEA Plan for Safe Return to In-Person Instruction and Continuity of Services

- (a) An LEA must describe in its plan under section 2001(i)(1) of the ARP Act for the safe return to in-person instruction and continuity of services—
 - (i) how it will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policies, on each of the following safety recommendations established by the CDC:
 - (A) Universal and correct wearing of masks.
 - (B) Modifying facilities to allow for physical distancing (*e.g.*, use of cohorts/podding)
 - (C) Handwashing and respiratory etiquette.
 - (D) Cleaning and maintaining healthy facilities, including improving ventilation.
 - (E) Contact tracing in combination with isolation and quarantine, in collaboration with the State, local, territorial, or Tribal health departments.
 - (F) Diagnostic and screening testing.
 - (G) Efforts to provide vaccinations to school communities.
 - (H) Appropriate accommodations for children with disabilities with respect to health and safety policies.
 - (I) Coordination with State and local health officials.
 - (ii) how it will ensure continuity of services, including but not limited to services to address students' academic needs and students' and staff social, emotional, mental health, and other needs, which may include student health and food services.

(b)(i) During the period of the ARP ESSER award established in section Start Printed Page 212022001(a) of the ARP Act, an LEA must regularly, but no less frequently than every six months (taking into consideration the

Safe Return to In-Person Instruction and Continuity of Services Plan (ARP Act)

timing of significant changes to CDC guidance on reopening schools), review and, as appropriate, revise its plan for the safe return to in-person instruction and continuity of services.

- (ii) In determining whether revisions are necessary, and in making any revisions, the LEA must seek public input and take such input into account
 - (iii) If at the time the LEA revises its plan the CDC has updated its guidance on reopening schools, the revised plan must address the extent to which the LEA has adopted policies, and describe any such policies, for each of the updated safety recommendations.
- (c) If an LEA developed a plan prior to enactment of the ARP Act that meets the statutory requirements of section 2001(i)(1) and (2) of the ARP Act but does not address all the requirements in paragraph (a), the LEA must, pursuant to paragraph (b), revise and post its plan no later than six months after receiving its ARP ESSER funds to meet the requirements in paragraph (a).
- (d) An LEA's plan under section 2001(i)(1) of the ARP Act for the safe return to in-person instruction and continuity of services must be—
- (i) In an understandable and uniform format;
 - (ii) To the extent practicable, written in a language that parents can understand or, if it is not practicable to provide written translations to a parent with limited English proficiency, be orally translated for such parent; an
 - (iii) Upon request by a parent who is an individual with a disability as defined by the ADA, provided in an alternative format accessible to that parent
